

NAME

curl_slist_free_all - free an entire curl_slist list

SYNOPSIS

```
#include <curl/curl.h>
```

```
void curl_slist_free_all(struct curl_slist *list);
```

DESCRIPTION

curl_slist_free_all() removes all traces of a previously built curl_slist linked list.

RETURN VALUE

Nothing.

SEE ALSO

curl_slist_append(3),
